

FSPCF

Forestry Service Providers Compensation Fund

Report of the Authority as of September 30, 2021

General

The Forestry Service Providers Compensation Fund (FSPCF) was created on March 30, 2012 by the *Forestry Service Providers Compensation Fund Regulation* (BC Reg. 64/2012) and was seeded with a contribution of \$5,000,000 provided by the provincial government. Its purpose is to provide relief to Contractors that provided Forestry Services and were not paid for those services because the recipient of the Forestry Services became Insolvent. Insolvency for the purposes of the FSPCF is defined in the FSPCF Administrative Agreement.

Forestry Services are limited to those defined in the *Forestry Service Providers Protection Act (FSPPA)* and must have been provided to a tenure holder under the *Forest Act*. On December 7, 2016 BC Reg. 64/2012 was amended by BC Reg. 286/2016 to allow the inclusion of Silviculture Contractors' work as a prescribed activity included in the definition of eligible providers of Forestry Services under the FSPCF.

The FSPCF is administered by Eric van Soeren, the Authority appointed by the Minister of Forests, Lands, Natural Resource Operations and Rural Development under the *FSPPA*. Mr. van Soeren operates pursuant to an Administrative Agreement between the Authority and the provincial government. The Authority is not an agent of the government for the purposes of the *FSPPA* or the regulations under it. More detail on the FSPCF is available on the FSPCF website at www.fspcf.com.

Sources of Funds for the FSPCF

In addition to the \$5,000,000 seed money provided by the provincial government, the *FSPPA* contemplates other sources of funding. Part 2 of the *FSPPA* refers to "contributors" who will be identified by regulation and who will make contributions to the fund in accordance with the regulations. Additionally, the provincial cabinet may, by regulation, impose a levy on stumpage bearing timber that must be paid into the FSPCF. Finally, any amounts recoverable from an Insolvent Licensee relating to a financial loss for which a Forestry Service Provider has applied and received monies from the FSPCF, must be repaid to the FSPCF. This is to prevent double dipping.

To date no stumpage levy has been created. However, in April 2015 the provincial government contributed an additional \$1,000,000 to the FSPCF to help fund operations and reimburse the fund for compensation paid to date. In April 2016 the provincial government contributed a further \$1,000,000. This contribution was split so that \$500,000 went to the

original General Fund, and \$500,000 was allocated to a new Silviculture Contractors Compensation Fund. Regulations governing access to the Silviculture Fund were completed in the fall of 2016. In April of 2017 the Authority received a further \$350,000 that was directed to the General Fund of the FSPCF. In April 2018 the FSPCF received a further \$500,000 from the provincial government. That amount was split equally between the General and the Silviculture Funds. In May 2019 the provincial government contributed a further \$250,000, to be directed to the General Fund, and finally in May 2020 the province contributed a further \$500,000 to the General Fund.

In addition, in the fourth quarter of 2020 the Trustee of the BC Forestry Revitalization Trust, on the advice of its Advisory Board, wound up the BCFRT because it had fulfilled its mandate. A Surplus of \$24,237 remained, and it was transferred to the General Fund of the FSPCF.

Activities of the FSPCF to date

An Advisory Board has been established, a website has been created (www.fspcf.com), a claim form template has been developed, and templates for the assorted documents that will need to be generated to allow claims to be made and processed are ready to go.

No meetings of the Advisory Board have been held, because no situations that required decisions or recommendations with respect to policy have arisen.

During the Third quarter of 2021 no requests were made about possible FSPCF assistance as a result of slow payments by licensees. Notwithstanding the general economic slowdown caused by the Covid-19 pandemic, lumber prices have increased, forest activity is coming back, and I have not become aware of any licensees that are not able to start to pay their contractors within normal contract terms. There are still some cash flow issues as the industry ramps back up, but licensee insolvency does not appear to be an issue at this time. The recent sharp drop in lumber prices back to pre-pandemic levels does not seem to have caught any licensees off guard enough to cause insolvency issues to arise.

The bankruptcy of Errington Cedar Products Ltd. in late 2019 did cause some compensation payments to have to be made in the first and second quarters of 2020. As of September 30, 2021, it appears there are no more potential claimants, and a total of \$67,289 has been paid out in compensation on this file. I have received confirmation from the Trustee in Bankruptcy that there will be no recovery to the FSPCF on the compensation payments made in relation to the Errington Cedar bankruptcy.

There are no other active claims at this time, and no expected recoveries of other compensation payments made previously.

FSPCF Account Balances as of September 30, 2021

As of September 30, 2021, the FSPCF account balances per the bank statements, reconciled for outstanding cheques, were as follows:

Forestry Service Providers (FSP)

Account Balances

FSP General Compensation Fund \$8,384,230

FSP Silviculture Compensation Fund \$819,951

Total available funds \$9,204,181

Distributions to beneficiaries to date

Related to the insolvency of

Errington Cedar Products Ltd \$67,289

Greey Forest Products Ltd. \$343,929

International Aircraft Management Inc. \$37,902

Murch Timber Ltd. \$109,443

Yaorun Wood Products Ltd. \$155,867

Total Distributions to beneficiaries \$714,430

Less recoveries from insolvent companies \$10,896

Net Distributions to beneficiaries \$703,534

Total available funds plus net distributions \$9,907,715

Looking ahead

During the fourth quarter of 2021, the following activity is expected in the FSPCF:

- The Authority will continue to monitor potential licensee insolvencies in the Province and work proactively with Forestry Service Providers to determine whether or not they may be eligible for FSPCF assistance.
- The Authority will continue to work with the province and the forest industry to develop a mechanism to build the FSPCF to a level where it will be able to react to a significant insolvency should one occur.
